## **Personal Summary**

I am currently a Computer Science student looking for industrial placement at a fast-paced work environment, where I would be able to interact with a team and contribute to real-world projects that would provide experience and knowledge for me when seeking a graduate position in future. I have experience in programming through my studies and various interactive online classes, I also have good communication and team working skills developed from my studies classes. I am very organized and have good leadership skills.

## **Technical skills**

**Software:** Microsoft Word, Microsoft Excel, Microsoft PowerPoint and Visual studio

**Programming:** Python, HTML, CSS, C++

**Operating Systems:** Windows 7, Windows 8.1, Windows 10

## **Education**

### **Nottingham Trent University, BSc (Hons) Computer Science**

2020 – present

Current Modules: System Software, Software Design and Implementation, Software Engineering, Applied Math and Graphics and Information And Database Engineering and Practical Project Management and Professional Development.

Current Grade: 2:1

### **Westerfield College, International Foundation Program In Computing**

2019 – 2020

Relevant courses: Math, English for Academic Purposes, Information Communication Technology (ICT), Computer Programming, Engineering Physics

GPA: 4.44/5.0

### **Trinity International College, Nigeria**

2013 – 2019

Highschool diploma

5 IGCSE's A – B Grades including English, Math and Science

GPA: 4.4/5.0

## **Experience**

### **Riverside Bakery**

#### **2021 – Present**

Food Production Operative

- Ensure food items are in proper packaging before sent out.
- Ensure warehouse safety is guaranteed by practicing warehouse rules and regulations.

### **Relevant Experience**

#### **IBM Master the Mainframe**

##### **2020 - 2021**

- Solving a series of coding challenges using visual studio code
- Completed level 1 working to complete level 2

#### **Login Security Project**

November – 2020

Foundations of Computing and Technology (Programming strand)

- Built an interactive GUI that stores the credentials of the users.
- Created a Graphical user interface using python and Tkinter

## **Achievements and Interests**

- I was awarded the International and EU Scholarship Scheme by Nottingham Trent University.
- I support the Manchester United football team and occasionally play for the purpose of keeping fit and staying active.
- I am a member in my university's DevSoc (Developer's Society), where we have conventions and discussions about recent technological advancements.
